

" Fremantle Members continue their Fight for Fairness"

The LGRCEU and CFMEU members and employees of the City of Fremantle took further industrial action against the City of Fremantle.

The LGRCEU and CFMEU will stand united and win this battle with support from employees and the general public.

Thank you to ALL that have come out and taken the time and sacrificed wages to make sure the departing CEO and his successor learn that the power of the people, rate payers and employees will not be defeated.

A symbolic minute's silence was held for the departure of outgoing CEO, who has left his \$280,000.00 a year job for greener pastures.

The workers having 'joyfully' surrendered \$3,500.00 of their accrued leave and/or wages to make him and his Council look good, were moved to minute's silence outside Council House for this most solemn of occasions!
